shake	A jazz term describing a trill between one note and its minor third; or, with brass instruments, between a note and its next overblown harmonic.
tremolo	Shaking (i.e. a rapid repetition of the same note, or an alternation between two or more notes). It can also be intended (inaccurately) to refer to vibrato, which is a slight undulation in pitch. It is notated by a strong diagonal bar across the note stem, or a detached bar for a set of notes (or stemless notes).
glissando	is a glide from one pitch to another. It is an Italianized musical term derived from the French glisser, to glide. In some contexts it is distinguished from the continuous portamento
